Albert L. Collett, engineer for the Compania de Salinas de Altar, came up from Altar Wednesday to visit for a few days. Mr. Collett says the mines being worked by his company are paying big money.

P. B. Yates, route agent for Wells, Fargo & Co., was in Nogales a couple of days during the first of the week on business for his company. Mr. Yates has many friends in the Line City who are glad to see him. He has just returned from a trip to San Francisco.

J. C. Page, foreman of the Chiricahua's sulphur spring valley ranch has been in Nogales with a party of cowboys three weeks waiting for a band of steers to come up from Mexico. He expects them every day and will take them to the company's Fort Thomas ranch when they come.

J. R. Southworth and wife returned from a two weeks trip to California Monday. They visited Los Angeles and San Francisco during their absence. Mr. Southworth had all the necessary plates made for illustrating his book on Sonora which will soon be ready for distribution. They are located at the Montezuma hotel.

A party of local mining men is being organized to go to the Yaqui river where the rich placer diggings were struck. The party will go by the Ajo mountains then across to Batopilas ranch where they strike the Yaqui river and follow it down to the strike. Hon. Sam F. Webb and W. E. Pomeroy will head the party.

THE VIDETTE was in error last week in stating that the altitude of Nogales is 3,500 feet. We find according to Lieut. H. O. Flipper, the altitude is a little over 4,000 feet above sea level and several hundred feet above yellow fever level. Yellow fever cases have been brought here in the past, but no one caught it and the patients either died or got well very soon.

Editor Patton of the Bisbee Lyre spent Sunday in Tombstone with his family. His little daughter, Martha, was compelled to return yesterday from Nogales where she had gone on a visit, being taken down with a burning fever and the little Miss is now confined to bed with what may develop into typhoid fever. The Prospector trusts she will speedily recover.—Tombstone Prospector.

A long conversation took place in Amarillas town regarding a young lady. "Be careful what you say."

Mr. Hansen, who had a severe attack of neuralgia, is slowly recovering. We hope to see him around soon.

Mr. Stephens met with a severe accident while working close to some machinery at the Amarillas mill. The machinery caught his shirt sleeve and wound him around.

One night last week a Yaqui went in swimming at the big dam and was taken with cramps and drowned. This is the third man drowned since the dam was built. It reminds us of the sad fate of Harry Grinnell a year ago.

On the night of the 2nd two men quarreled over a woman, when one stabbed the other several times with a knife, the other then pulled a gun and shot his antagonist in the breast. They are both dead. Tanglefoot and a woman are bad medicine.
